Built for the harshest jobs

Aluclean / Bitstrip / Decarbonizer /
Grit Handcleaner / Rustaway /
Scaleaway / Reflection / SolvWash

HOSPITALITY BLAQUE
(PTY) LTD

ALUCLEAN

Is an acidic liquid cleaner & brightener and will remove water stains, tarnish, corrosive deposits, oxidation, discoloration, road film effectively.

Usage: Apply by brush, mop broom or by painting it onto the surface at a dilution ratio of between 3 to 10 parts of water. Allow a contact time of 5 to 10 minutes then wash/rinse thoroughly with fresh water.

Colour: Water

BITSTRIP

Is a solvent to effectively remove bitumen and tar safely. It can be used in the building industry to clean bricks and concrete, the asphalt industry to clean the equipment, machinery and trucks.

Usage: LIGHT DUTY: For cleaning or degreasing dilute 1-part BITSTRIP with 5 parts of power paraffin. Apply by brushing, spraying or painting it on with a slight agitation. Allow it to penetrate and dissolve for at least five minutes. Flush with water under pressure.
HEAVY DUTY: Use BITSTRIP undiluted, by dipping, spraying or brushing. Allow to penetrate and dissolve for at least five to ten minutes. Flush with water under pressure. Heavier deposits will require longer soaking and light brushing. Smaller items like tools can be soaked into BITSTRIP

Colour: Light brown

DECARBONIZER

Is a highly-effective carburetor cleaner. It is excellent for removing carbon from cylinder heads, carburetors, crankcase sludge, lacquer and blow by solids from engine parts as well as stripping general paint from conveyor hooks or paint screens.

Usage: Strip all parts and remove gaskets, packing, rubber and leather parts. DECARBONIZER should be used in an unheated mild steel tank with a wire basket or hooks for smaller parts or items. Use product neat and shake well before decanting into tank. No agitation or heat is needed. Pre-clean parts or items from excess grease and oil with a water-based degreaser which will save on cost and time. Your DECARBONIZER will last longer and the cleaning process will be much quicker. A time period of 10 to 30minutes or longer is needed for parts or items be soaked /immersed in the DE-CARBONIZER tank.

Colour: Brownish

GRIT HAND CLEANER

Is a professional grade hand cleaner with grit, which contains emollients and skin conditioners to care for hands. Designed to remove stubborn grease, grime, paint, dirt and ink as it includes a fine abrasive grit for added scrubbing power to assist in the removal of ingrained grime. A small quantity is all that is needed to quickly soften and absorb the grime, after which a clean towel or rag can be used, or wash your hands under a tap. Your hands will be left clean and smooth.

Usage: As is.

Colour: Yellowish, light brown

REFLECTION (STAINLESS STEEL CLEANER)

An acetic compound for cleaning and passivating stainless steel that will effectively remove fingerprints, hard water scale, surface rust, other watermarks and more.

Usage: Use neat/as is or dilute with 1 to 3 parts of water. Always start from the bottom up by brushing, painting or washing it onto the surface with a slight scrubbing action. Give contact time of 30minutes to 2 hours then rinse with fresh water.

Colour: Water

RUSTAWAY (METAL CLEANER)

Is an acidic metal cleaner and conditioner with an inhibitor to remove rust and rust stains. It can also be used as a first primer in preparation for painting or spraying

Usage: Apply by brush, spray, dip or by wiping it on. Dilute with 3parts of water for first application and leave on surface for 30minutes. A 1 to 5 dilution will be efficient for a final application.

Colour: Water

SCALEAWAY

Is an inhibited, acid descaler for the removal of cement trailing, rust marks and hard water scale.

Usage: First clean the surface, then wet with water and then apply a suitable solution of SCALEAWAY. Allow a minimum contact time of 5 to 15minutes for product to act. Scrub with hard bristle broom and rinse well with water.

Dilution: Dilute with 10parts of water.

Colour: Red

SOLVWASH

A concentrated solvent degreaser for the removal of penetrated or heavy grease and oil. Excellent product to clean cement, brick and paving surfaces like factory floors, workshop floors, forecourts, driveways etc. Not suited to use on tar/asphalt.

Usage: Use neat/as is or dilute with up to 10parts of water depending on the severity of the grease, oil and grime on the surface. Brush or Spray Solv Wash (or mixed solution) onto the surface. Scrub and agitate with hard bristle broom or scrubbing machine. Leave for 5-15 minutes to penetrate (soak in). See if a second scrub is needed and give a final rinse off with water.

Colour: Water

AUTOMOTIVE

Exceptional car care products

Car Shampoo / Car Wash & Shine / Degreaser WB /
Degreaser SB / Tyre & Vinyl - Silicone / Tyre & Vinyl -
Cherry / Tyre & Vinyl - Lavender / Tyre & Vinyl - Plain

HOSPITALITY BLAQUE
(PTY) LTD

CAR SHAMPOO

A general vehicle body shampoo with maximum cleaning power that is suitable for all paint finishes, including metallic.

Usage:

Dilute with 100 to 400 parts of water.

1lt will cover up to 20 washes.

Colour: Red

CAR WASH & SHINE

A high-quality car and truck wash with maximum cleaning power that is suitable for all paint finishes, including metallic. Formulated to not only remove dust, dirt, and grime but also leave an extra high-gloss shine.

Usage: Dilute with 100 to 400 parts of water. (1lt will cover up to 20 washes.).

Colour:

Light-gold

DEGREASER

-WB / SB

A high-quality, water-based or solvent-based product that results in a product of exceptional quality and safety. The Water-based version is environmentally friendly, biodegradable, non-flammable and non-pollutant. Degreaser is used as a cleaner & degreaser for engines, mag wheels, canopies, tiles, walls, workshop floors, forecourts, driveways, brake dust, and more. It can be used in a pressure washer and is especially useful when used in a steam cleaner.

Usage: DEGREASER may be applied by brush, mop, rag or by spraying it on. Can also be used with a high- pressure washer either cold or hot.

A reaction time of 5 to 10 minutes will help with the agitation and will assist the cleaning action.

Dilution: Use neat or with 10parts of water for heavy duty. 1 - 20parts of water for medium duty.

1- 100parts of water of general use and light duty.

Colour: Red-brown

TYRE & VINYL - SILICONE

A High shine solvent-based silicone emulsion that has been specially formulated to impart a high gloss finish and is particularly suited for use in enhancing vehicle trim. It is equally useful when used on leather, plastic, vinyl and rubber.

Usage: As is, use with a brush, sponge, cloth or spray applicator.

Colour: Water

TYRE & VINYL - CHERRY

A water-based silicone emulsion with a cherry fragrance that is equally suited for both the inside and outside of vehicles. IT can be used on the dashboard, leather, vinyl areas or tyres and will leave a smooth, shiny finish and a pleasant aroma.

Usage: As is, apply with a brush, sponge, cloth or spray applicator.

Colour: Pinkish

TYRE & VINYL - LAVENDER

A water-based silicone emulsion with a lavender fragrance that is equally suited for both the inside and outside of vehicles. It can be used on the dashboard, leather, vinyl areas or tyres and will leave a smooth, shiny finish and a pleasant aroma.

Usage: As is, apply with a brush, sponge, cloth or spray applicator.

Colour: Milky

TYRE & VINYL - PLAIN

A water-based silicone emulsion that is equally suited for both the inside and outside of vehicles. It can be used on the dashboard, leather, vinyl areas or tyres and will leave a smooth, shiny finish.

Usage: As is, apply with a brush, sponge, cloth or spray applicator.

Colour: Milky

FLOOR PRODUCTS

Bring life back to your floors

Carpet Shampoo - Liquid / Carpet
Shampoo - Powder / Floor
Degreaser / Floorshine / Floorstrip /
Forecourt Cleaner / Lamiclean

HOSPITALITY BLAQUE
(PTY) LTD

CARPET SHAMPOO - LIQUID

Is a low foam, deep penetrating liquid for the effective cleaning of all carpets.

Usage: Manual use: Dilute(mix) 1 cup of carpet shampoo liquid to 5litres of water.

Carpet shampoo machine: Put carpet shampoo liquid in the chemical component/ holder of the machine.

Colour: Water

CARPET SHAMPOO - POWDER

Is a low foam, concentrated powder that is used to remove stubborn and ingrained soiling from carpets

Usage: Manual use: Dilute half a cup of powder in 5 litres of water or scatter powder on stains and scrub with hard bristle broom or scrubber. Carpet shampoo machine: Use half a cup of powder in 5litres of water or put in chemical holder of carpet machine.

Colour: White

FLOOR DEGREASER

A specialized heavy duty solvent-based oil, grease and grime remover for cleaning and restoring cement, concrete, brick and stone surfaces. Suitable to clean and prepare the floor before painting. NOT recommended for tar surfaces.

Usage: Wet the floor area with water. Apply FLOOR DEGREASER neat or use 1part of product to 5 parts of water. Use a stiff bristle broom to scrub /agitate until it become like a gel. Allow a contact time of approximately 15minutes. Rinse with water.

Colour: Water

FLOORSHINE

Is a medium solid, high gloss, self-levelling liquid floor polish designed for easy maintenance in dense traffic areas it is soil and moisture resistant. It withstands repeated washing without deteriorating it guards against scuffing and stands up to wear and tear, significantly reducing the need for frequent stripping and refinishing.

Usage: Clean the floor area thoroughly, rinse and allow to dry. Apply a moderate coat of Floor Shine and if a second coat is required wait 30 minutes before applying. Floor Shine is detergent resistant after 12 hours. 1lt will cover approximately 4m².

Colour: White

FLOORSTRIP

Is a high-energy, concentrated, multi-purpose liquid cleaner that removes stubborn grime, greasy soils, emulsion floor dressings and wax build-ups quickly and efficiently.

Usage: Apply by rag, mop, broom, scrubbing machine or pressure washer.

General use: 1 to 5 or 10 parts of water.

Medium Duty: 1 to 20 parts of water.

Light Duty: 1 to 50 parts of water.

Colour: Light yellow

FORECOURT CLEANER

Is a alkaline degreasing powder which is formulated for cleaning and maintaining cement, bricks and tar surfaces. Excellent product for workshop floors, driveways, tarmacs, factory floors or anywhere, where powerful degreasing properties are needed.

Usage: Wet the floor area and sprinkle it with floor cleaning powder, scrub with stiff brush and allow for a 15 minute contact time. Rinse with clean water.

Colour: White

LAMICLEAN

A water-based detergent with a fragrance, used to clean wood and laminated floors. It leaves floors sparkling clean without any residue or film and can be used to clean laminated & wooden floors, tiles, ceramic and vinyl surfaces.

Usage: As is.

Colour: Orange

LINENFRESH (FABREEZ)

Spritz away and instantly clean away fabric odors. Clean away odors with no heavy perfumes. For fabrics you wish you could wash: Fabreeze eliminates sunk-in stink with long-lasting freshness.

Crank up the fresh-tensity of your home's fabrics and clean away stinks with Fabreeze Fabric Refresher.

Usage: Spray as is.

Colour: Water

AQUASHEEN WASHING LIQUID

Is an eco-friendly, organic solvent based, one shot liquid detergent for the efficient removal of heavy organic soils and stains from cotton or poly-cotton fabrics.

Usage: 10-20ml per kilogram of dry linen. (Best used with peristaltic pumps).

Colour: Cream

AQUATERGE WASHING LIQUID

Is a concentrated blend of surfactants and high quality suspenders, peptisers and sequesters, specifically formulated for the removal of body soils, fats, greases and medicinal stains from fabric.

Application: Fabric Linen

Usage: 4ml per kilogram of dry weight laundry. (Should be used through peristaltic pumping apparatus).

Colour: Blue

DAILY WASHING POWDER

A special blend of peptises, designed specifically to degrade protein, starch and fat soils normally associated with table napery.

Usage: Use 10 - 15ml per kilogram dry weight laundry.

Colour: White

PREMIUM WASHING POWDER

A high quality, new generation, eco-friendly, fully-built, deep-cleaning premium washing powder that is biodegradable and contains medium alkali's, peptises, sequestering and wetting agents which are tightly coupled with speciality enzymes and low-temperature oxidisers.

Usage: Use 10 - 15ml per kilogram dry weight laundry.

Colour: White

CONDENSED WASHING POWDER

A high-quality, fully-built, catalysed laundry detergent powder that contains a high concentration of top quality whitening agents and optical brighteners. A fully complete detergent that requires no additives nor the need to use in conjunction with any other laundry products.

Usage: Use 15ml per kilogram dry weight laundry.

Colour: Off-white

FABSOFT ALPHIE

A high-quality, cationic fabric conditioner with a fragrance.

Usage: 6 millilitres per kilogram of dry linen.

Flavour: Alphie

Colour: Cream

FABSOFT AUTO

A subtly fragranced, concentrated fabric softener.

Usage: 6 millilitres per kilogram of dry linen.

Colour: Cream

FABSOFT Lily

A high-quality, cationic fabric conditioner with a fragrance.

Usage: 6 millilitres per kilogram of dry linen.

Flavour: Lily

Colour: Cream

BLEACH POWDER

Is an organic chlorine bleach additive, that is used in laundries to assist with the removal of stains and whitening of linen.

Usage: Use 10ml per kilogram dry weight laundry.

Colour: White

DYEOUT-MAGIC STRIP

Is an extremely efficient, powdered stain remover for the removal of fugitive dye marks and various organic stains on white fabric.

Usage: Use 10ml per kilogram dry weight laundry.

Colour: White

G.P.O.

Well known and widely used to remove grease, paint, oil, and fat from linen.

Usage: As is. Spray directly on to the stain before washing.

Colour: Water

OXYLITE (VANISH)

Oxygen bleach for use in laundries, and it is especially useful in the removal of red wine, blood and other organic stains. (A more robust version of "Vanish").

Usage: Dissolve 10-15ml per kg of dry weight laundry in warm water. Dissolve completely. Not safe on wool and silks

Colour: White

RUSTEX

Is a laundry additive used for removal of rust from linen.

Usage: As is, dabbed directly on the stain, it will remove all traces within seconds.

Colour: Water

VANQUISH (VANISH)

A high-quality detergent assisted hydrogen peroxide stain remover.

Usage: As is, spray directly on the stain before washing.

Colour: Water

HAEMOZYME LAUNDRY ADDITIVE

A high-quality enzymatic laundry sluicing powder for Hospital use.

Usage: Use 10 - 15ml per kilogram dry weight laundry.

Colour: White

POLYTERGE LAUNDRY ADDITIVE

A laundry additive for the removal of oil and fats.

Usage: Add directly to wash at a ratio of 5 - 10 ml per kg of dry weight laundry, depending on the degree of soiling.

Colour: White

RUSTOUT LAUNDRY ADDITIVE

Agent for the removal of yellowing in linen due to iron in water.

Usage: 1. After laundering with Ultrasuds ,(wash detergent), separate the stained items for reprocessing as follows.
2. Wash at 50 degrees for 5 minutes with Oxalic Acid (2 grams/ kg dry linen to remove the Fe).

Colour: White

SOUR LAUNDRY ADDITIVE

Is a mildly acidic sour designed for use in laundries to remove rust and yellowing of linen caused by the water supply.

Usage: Add 100-200g per wash (Up to 125 uses with a 25kg bag).

Colour: White

STAINOUT LAUNDRY ADDITIVE

Is a powerful chlorine-based liquid laundry stain remover for use on white linen.

Usage: Add 5ml per 1 Litre water. For best results use in warm water. Can be used as soaking media.

Colour: Light Yellow

STARCH LAUNDRY ADDITIVE

A laundry additive used to add stiffness and crispness to fabrics. It contains vegetable starch that when mixed with water, adheres to the fibres of clothing and linens.

Usage: Mix Starch with water and add to final rinse.

Tumble Drying item loses the effectiveness.

Colour: White

SUNOUT LAUNDRY ADDITIVE

A laundry additive for Sunblock stains. Use as pretreatment.

Usage: Add 15ml per dry weight. Prewash at 40 degrees.

If not able to prewash, you can add it to main wash with detergent

Colour: White

WETSUIT BUDDY

A biodegradable wetsuit sanitizer and cleaner that is odourless, colourless and tasteless. It kills all germs and eliminates odours. Usually used in a bath or container, the wetsuit is immersed and agitated by hand to make sure the complete suit receives a thorough wash

Usage: With a dilution of 1-100 with water and a 5minute contact time wetsuit shampoo will neutralise all germs and bacteria.

Colour: Water

AMMONICREAM (HANDY ANDY)

An all-purpose ammoniated general cleaner that is mostly used in kitchens, bathrooms, toilets and cloakrooms. As an all-purpose cleaner, it is found to be useful in a multitude of areas in institutions, offices, factories and the home.

Usage: As is. Apply by hand, undiluted on a damp cloth, then wipe over the surfaces of baths, basins, stoves, sinks, fridges and other hard surfaces. DO NOT use on vinyl or similar surfaces.

Colour: Cream

BLACKDIP (JEYES FLUID)

Jeyes Fluid - disinfectant fluid for outdoor use only.

Dilution Ratio:
As is.

Colour: Black

BLEACH 6%

Is a strong chlorine-based stain removal and whitening agent for domestic and semi-commercial use.

Dilution Ratio:
As is or 100ml per 2,5lt of water. (250 uses per 25lt, depending on the application).

Colour: Light-yellow

BLEACH -THICKSTUFF (DOMESTOS)

Cleans and disinfects toilets, showers, drains and sinks, killing all known germs in kitchens, cloakrooms, restrooms, and other similar areas. It also helps with mildew in bathrooms & showers.

Usage: As is or diluted on surfaces or pour down your plugholes and drains on a regular basis to prevent blockages and build-up of residue in your pipes. It will kill 99,9% of all germs and will leave a visible shine.

Colour: Light yellow

BOWLSHINE TOILET LIQUID

Is an acidic toilet bowl cleaner for the removal of rust & hard water stains and residue. It is safe to use on porcelain and ceramic. NOT recommended to use on stainless steel.

Usage: Use neat/ dilute with 10 parts of water. Remove as much water as possible from the bowl. Add Bowlshine into bowl and give a 3 - 5minute contact time. Use a sanitary brush if the bowl is badly stained and use BOWLSHINE neat and leave for longer period (maybe overnight) before flushing or rinsing.

Colour: Water

BOWLSHINE TOILET POWDER

Is used in the cleaning the toilet bowls. It is an effective, safe and powerful way of cleaning your toilet bowls and urinals. Stubborn stain, hard water scale, rust stains and residue will easily be removed or loosened.

Usage: Wet the surface then scatter 50gms into the bowl. Scrub with a brush if necessary. A contact time of 10 to 15 minutes is necessary for the product to react. Then rinse well with water.

Colour: White

DEODET DISINFECTANT CLEANER

Is an all-purpose deodorizer & general cleaner which simultaneously clean and freshens kitchens, bathrooms, cloakrooms, stoops, veterinary hospitals, doctors or dentist waiting rooms or surgeries. It has exceptional grease cutting, emulsifying, wetting and suspending properties.

Usage: Dilute with up to 40 parts of water. (25lt will make a 1000lt mixture).

Colour: Green

DEOSAN CHERRY

Cleans & deodorises floors, toilets, baths and will quickly remove dirt & grease from surfaces. It has a clean cherry scent that leaves the cleaned surfaces with a fresh and pleasing atmosphere.

Usage: Dilute with up to 40 parts of water. (25lt will make a 1000lt mixture).

Colour: Red

DEOSAN LAVENDER

Cleans & deodorises floors, toilets, baths and will quickly remove dirt & grease from surfaces. It has a clean lavender scent that leaves the cleaned surfaces with a fresh and pleasing atmosphere.

Usage: Dilute with up to 40 parts of water. (25lt will make a 1000lt mixture).

Colour: Blue

DEOSAN PINE

Cleans & deodorises floors, toilets, baths and will quickly remove dirt & grease from surfaces. It has a clean pine scent that leaves the cleaned surfaces with a fresh and pleasing atmosphere.

Usage: Dilute with up to 40 parts of water. (25lt will make a 1000lt mixture).

Colour: Yellow

DISHWASH LIQUID CITRUS

Lemon fragrance concentrated detergent with maximum cleaning power for wide range of applications.

Usage: Dilute with water 1-400. (1lt can do up to 200 basins).

Colour: Green

DISHWASH LIQUID CLEAR

A concentrated biodegradable detergent with no fragrance or dye, specifically formulated for the food industry.

Usage: Dilute with water 1-400. (1lt can do up to 200 basins).

Colour: Yellow

DRAINCLEAR

Is used to clean, unblock and prevent the re-occurrence of blocked drains and sewer pipes by dissolving fats, grease and hair, and will remove and destroy almost anything that cause stoppages or slow drainage in your pipes. Pour a small quantity into the drain trap and allow to react for as long as possible, avoiding excessive heat build up.

Usage: Use neat. (1lt will cover 2 to 3 applications).

Colour: Dark brown

HANDSAN LIQUID

Alcohol-based hand sanitizer for use in hospitals, schools and other institutes to keep your hands clean and germ-free.

Usage: Rub hand sanitizer onto the hands and it will dry in seconds and will not dry your hands, it feels good on the skin and kills germs in their tracks and requires no water.

Colour: Blue

HANDSAN GEL

Waterless alcohol-based hand sanitiser for use in hospitals, schools and other institutes to keep your hands clean and germ-free. Available in Aloe Vera, Eucalyptus or with no fragrance

Usage: Rub hand sanitiser onto the hands and it will dry in seconds and will not dry your hands, it feels good on the skin and kills germs in their tracks and requires no water.

Colour: Transparent with bubbles

HAPPY HANDS ANTIBACTERIAL

Liquid soap that leaves hands soft, moisturized and fresh. It won't dry out hands and is gentle on the skin. Recommended for bathrooms, offices, cloakrooms and around the house.

Usage: As is in a dispenser.

Colour: Yellow

HAPPY HANDS LAVENDER

A lavender fragranced liquid soap that leaves hands soft, moisturized and fresh. It won't dry out hands and is gentle on the skin. Recommended for bathrooms, offices, cloakrooms and around the house.

Usage: As is in a dispenser.

Colour: Pink

HAPPY HANDS PALMGEL

A thick liquid hand cleaner formulated for people with sensitive hands and skins. Suitable for wide range of hand cleaning for mechanical, engineering, office and cloakrooms.

Usage: As is in a dispenser or squeeze bottle.

Colour: Light green

HAPPY HANDS ROSE

A rose fragranced liquid soap that leaves hands soft, moisturized and fresh. It won't dry out hands and is gentle on the skin. Recommended for bathrooms, offices, cloakrooms and around the house.

Usage: As is in a dispenser.

Colour: Blue

MULTICLEAN

A all purpose non-flammable, non-pollutant, all-purpose cleaning product for use on upholstery, carpets, walls, leather, vinyl & many other materials.

Usage Ratio: Apply with a mop, brush, rag, pressure washer, auto scrubber or use a spray and wipe application.

Dilution ratio: Heavy duty - 1 to 5 parts of water.
Medium duty - 1 to 10 parts of water
General use or light duty - 1 to 20 or upto 50 parts of water.

Colour: Water

OVEN AND GRILL CLEANER

An alkaline detergent for dissolving fat, carbon and baked on food residues on ovens, ranges, grill, hotplates, braai-grids or chip fryers.

Usage: General use: dilute with upto 10 parts of water by spraying, brushing or wiping it on to the surface. Heavy duty: Use neat or dilute with 5 parts of water. Give a contact time of 5 to 20 minutes and rinse with water.

Colour: Light-goldish

PINE GEL

A versatile all-around cleaner for areas that require a germ-killing and hygienic solution. It's a concentrated, nonabrasive gel that deodorises. The gel-based formula contains pine oil that acts as a natural disinfectant and has a fresh pine fragrance. It also dissolves soap scum, ground in dirt and grime. Dilute it with water for higher volume.

Usage: Used neat/as is with a cloth/rag or dilute 100ml to 200ml per 10 litres of warm or cold water.

Colour: Green

SANIBLOO STRAWBERRY

Portable toilet waste digesting liquid.

Usage: Dilute 100ml in 20 litres of water.

Colour: Blue

SMOKEHOUSE BLASTER

Effective grill & canopy cleaner

Usage: Use neat/as is or dilute with 5 to 10 parts of water. It can be applied by painting, spraying, wiping, mopping or dipping. A contact time of 5 - 10 minutes is needed where necessary

Colour: Light-goldish

SPARKLE (WINDOW CLEANER)

An alcohol-based window, tile and mirror cleaning product that will leave surfaces brilliant with a streak-free finish.

Usage: Dilute with upto 200parts of water by spraying ,wiping or using a squeezie.

Colour: Light blue

STERIBAC READY2USE /CONCENTRATE

A liquid sanitizer with a quaternary ammonium compound which is entirely safe for use in the food industry as a general-purpose cleaner and sanitizer. It is odourless, colourless and tasteless and can be used in restaurants, kitchens, food & fish factories & wineries.

Usage: Dilute ratio from 1% to 10% mixture. Apply by hand with a broom or a brush or by spray it on. A 5 minute contact time will give a 99,9% germ kill rate.

Colour: Water

STERIFOG

Ammonium compound with or without "Viruside" that is used for disinfecting small or large areas.

Usage: As is. Apply STERIFOG with a cold fogging or other misting equipment. 5-minute contact time will give a 99,9% germ kill rate.

Colour: Water

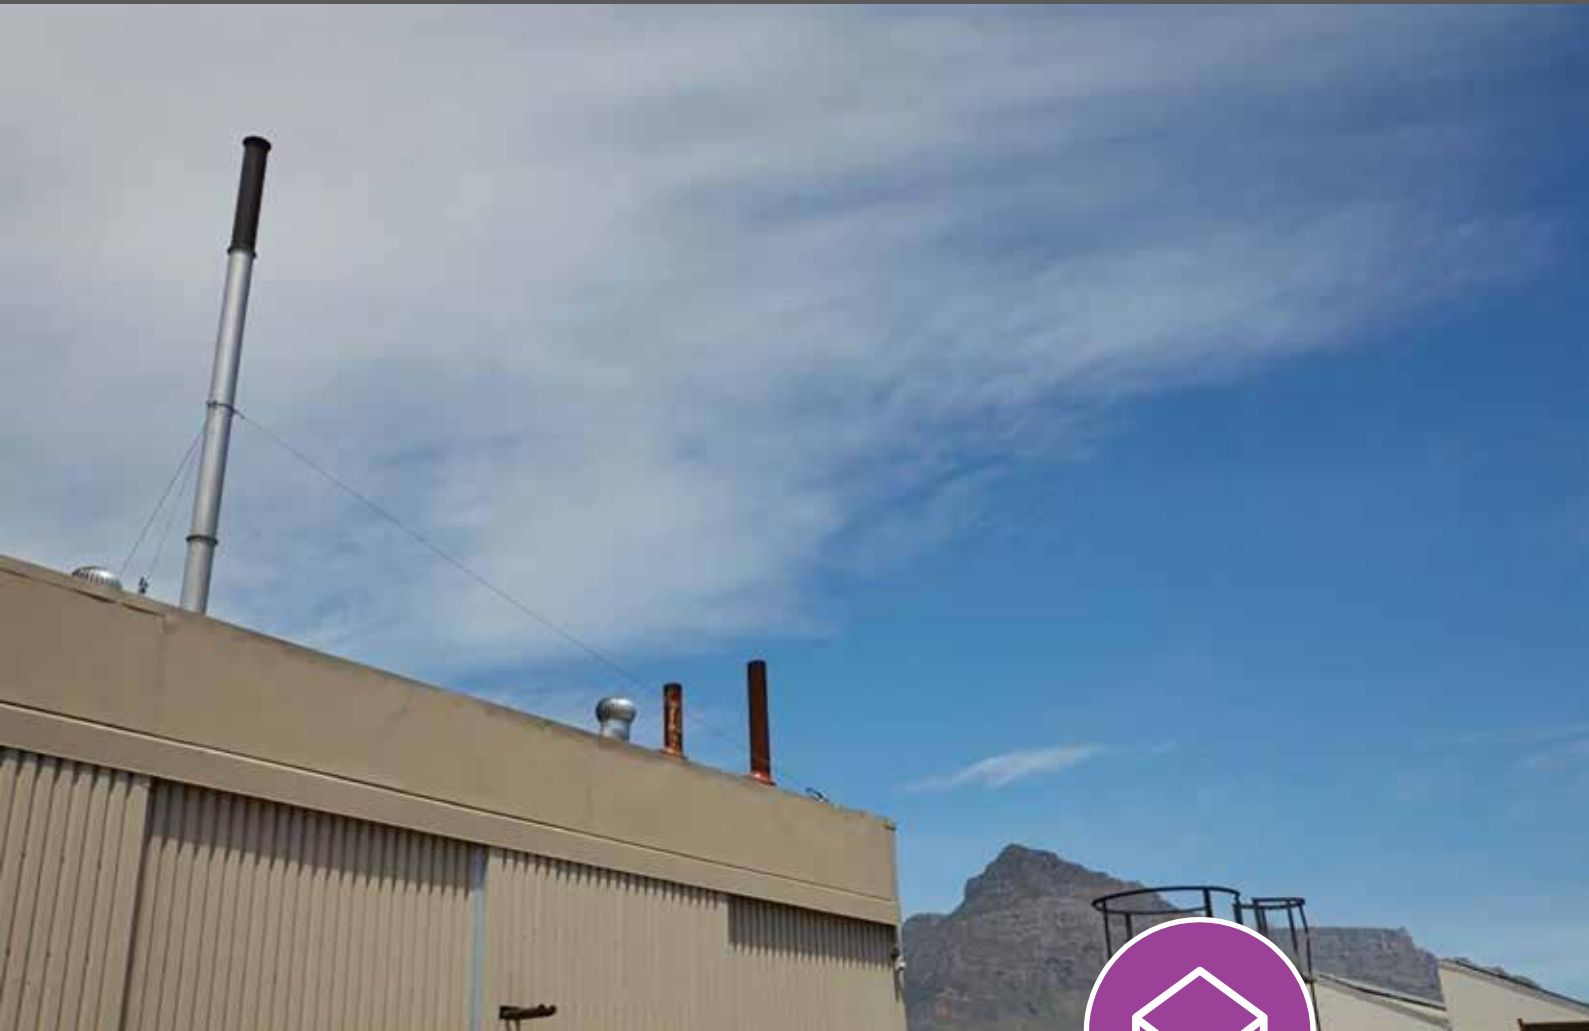

WIPE-OFF

Alcohol based Whiteboard and PC Cleaner

Usage: As is.

Colour: Clear Liquid
