Performance You Can Trust

PRICE LIST CATALOGUE 2024

Accreditations & Registrations

SABS Certification

The SABS certification or mark indicates that a product conforms to performance & quality assurance tests. It ensures that a product meets **National & International standards** or regulations governing quality & minimum performance requirements.

What is a **NCR** certificate?

All credit providers are required to register with the **National Credit Regulator**. A certificate is issued when the credit provider is in compliance with the National Credit Act.

Manufactured in **Great Britain**

Made in Britain supports & promotes **British manufacturing**, enabling buyers & consumers in The United Kingdom & abroad to identify British-made products.

ReFlo Technology uses the highest **quality recycled plastic**, ensuring our products are both sustainably engineered & built-to-last.

Seal of Approval

Established in 1995, **Allergy UK's Seal of Approval™** is a globally recognised product endorsement. It is currently used in 135 countries across the world by over 100 companies on a wide variety of products.

Zero waste

Zero waste is a set of principles focused on **waste prevention** that encourage re-designing resource life cycles so that all products are repurposed &/or re-used.

ISO:9001

The ISO 9001 family is a set of **five quality management system** standards that help organizations ensure they meet customer & other stakeholder needs within statutory & regulatory requirements related to product or service.

ISO:14001

ISO 14001 is a family of standards related to **environmental management** that exists to help organizations minimise how their operations negatively affect the environment, comply with applicable laws, regulations & other environmentally oriented requirements.

Solutions for Industries

Designed for **HEALTH** Care

Working closely with the Healthcare Industry to maintain the highest standard of cleanliness & hygiene.

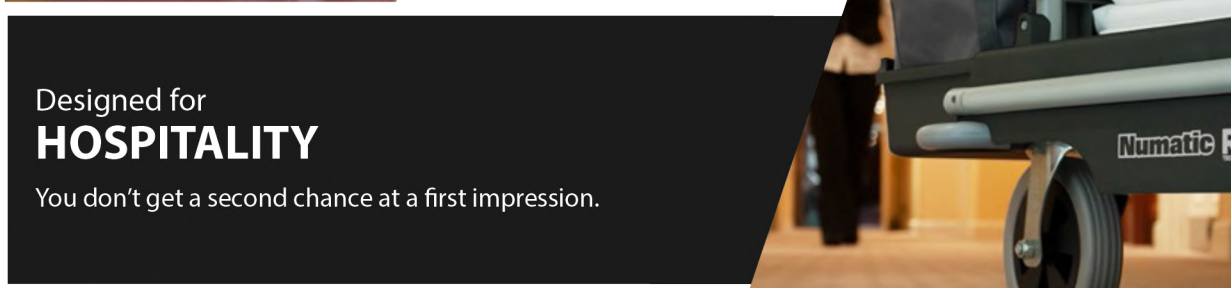

Designed for **EDUCATION**

Creating a clean & safe environment for learning, work & play.

Designed for **LOGISTICS** & Handling

Yielding maximum productivity, delivering the results you need, when you need them, without fail.

Designed for **HOSPITALITY**

You don't get a second chance at a first impression.

Designed for **CONSTRUCTION**

Robust & reliable equipment that has the power & performance to tackle whatever you throw at it.

Designed for **FACILITIES** Management

Providing optimum cleaning solutions to face the precise challenges & demands within an ever-changing FM Industry.

Built for Productivity

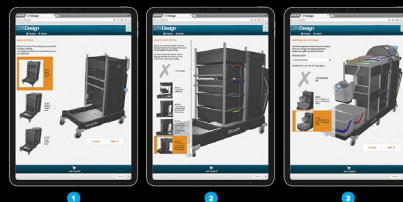

EcoMATIC Trolley Range

Offers great value, no-compromise cleaning systems, sustainably built using the highest quality recycled material.

The NuDESIGN Configurator

Enables users to specify a cleaning system that suits their specific requirements, with no detail overlooked.

The TRADELINE & HZ Machines

Provide advanced filtration & ease of use for those working with fine dust & hazardous substances.

The NuASSIST App

Gives users instant access to machine operation, troubleshooting & maintenance content on their mobile device.

Numatic Nu-Assist

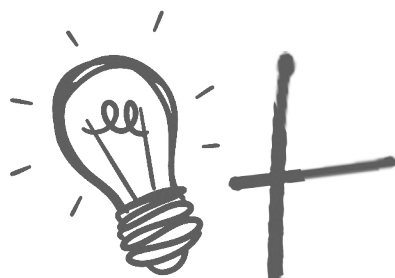

The Nu-AR Experience

Nu-AR is a new Augmented Reality tool that brings cleaning solutions to life in any environment, supporting Numatic customers to select the right tool for the job every time. Your 24-Hour Showroom.

Simple Cleaning, Complete Support

The Numatic Support website provides access to product updates, support documents & much more.... Cleaning productivity made simple.

Numatic
S U P P O R T

warranty

We, as manufacturer, place great pride in our product quality & our warranty is an essential facet of our Distributor Policy.

The warranty date commences from the date the goods are purchased by the end-user from a Numatic Distributor. The warranty expressly excludes consumable parts such as replacement carbon brushes, floor brushes etc. that are replaceable from time to time during the normal working life of the machine.

Vacuum Cleaners	2 Years
Rotary Single Discs	2 Years
Ride-On's	2 Years

HEPA-FLO Bags

HEPA is an acronym for high efficiency particulate air.

HEPA is a type of filter that can trap a large amount of very small particles that other vacuum cleaners would simply recirculate back into the air.

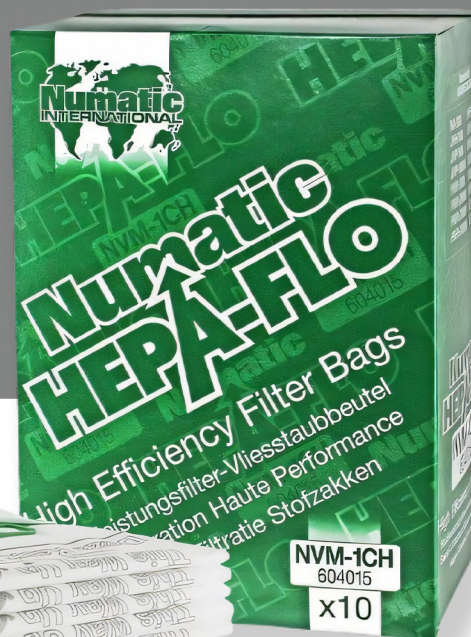

HIGH Efficiency

NO DUST, No Mess

SELF -SEAL TAB Lock

TRAPS SMALL particles

No Dust, No Mess

Hepa-Flo Bags with innovative self-seal tab lock all the dust in the bag.

What Goes in, Stays in

Hepa-Flo Bags use 3 layers of material to increase filtration, so what goes in, stays in

Wet & Dry Vacuums

- Wet & Dry Pick-up**
 Provides wet and dry pick-up effortlessly and will be found at home in the dirtiest of places.
- Built to Last**
 Heavy-duty Structofoam construction to endure years of industrial use.
- Easy, Clean & Safe Emptying**
 Fitted with a unique tipper handle providing simple and clean emptying.
- Power and Performance**
 Due to the full TwinFlo bypass motor with a two-motored specification.

Replacement Spares

SP040145	Side Brush (Each)	R 725.00
----------	-------------------	----------

480mm - 920mm cleaning path.

Side brushes are very effective when sweeping corners.

Working Width	Capacity	Weight	Dimensions
Without Side Brush/Brushes 480mm Single Side Brush 700mm Double Side Brushes 920mm	40ℓ	21.0kg	1300x790x1035mm

• Ease of Use

Side brushes help guide the rubbish away from edges and corners and into the path of the main roller brush for collection into the waste hopper/tank.

• Easy Emptying

The waste hopper can be lifted off the machine for easy emptying.

• Large Cleaning Width

The HS772 Manual Sweeper is push propelled and has a large maximum cleaning width of 920mm.

Chemical Cleaning Solutions

NuSTRIP

NuStrip is a water-based, heavy duty, non-ammoniated polymer stripper & industrial hard surface super cleaner.

NuBUFF

NuBuff is a water-based, low solid polymer, assisting in maintaining the appearance & non-slip properties of various flooring surfaces that have been sealed.

NuGEN

NuGen is a water-based, universal surface cleaner & all-purpose degreasing detergent, developed to be safe for use on most metals, hard & / or soft surfaces.

NuMATT

NuMatt is a water-based, low-foaming & quick drying carpet detergent with excellent cleaning & soil removal properties.

Chemical Cleaning Solutions

NuSCRUB

NuScrub LFG is a water-based, low-foaming, food grade, heavy duty degreaser & general purpose cleaner for use through industrial auto scrubbers.

NuBAC

NuBac is a water-based, super concentrated disinfectant & general purpose hygiene cleaner.

NuSEAL

NuSeal is a water-based, non-slip, floor sealing, treating & protective polishing compound used to enhance the appearance of various flooring surfaces.

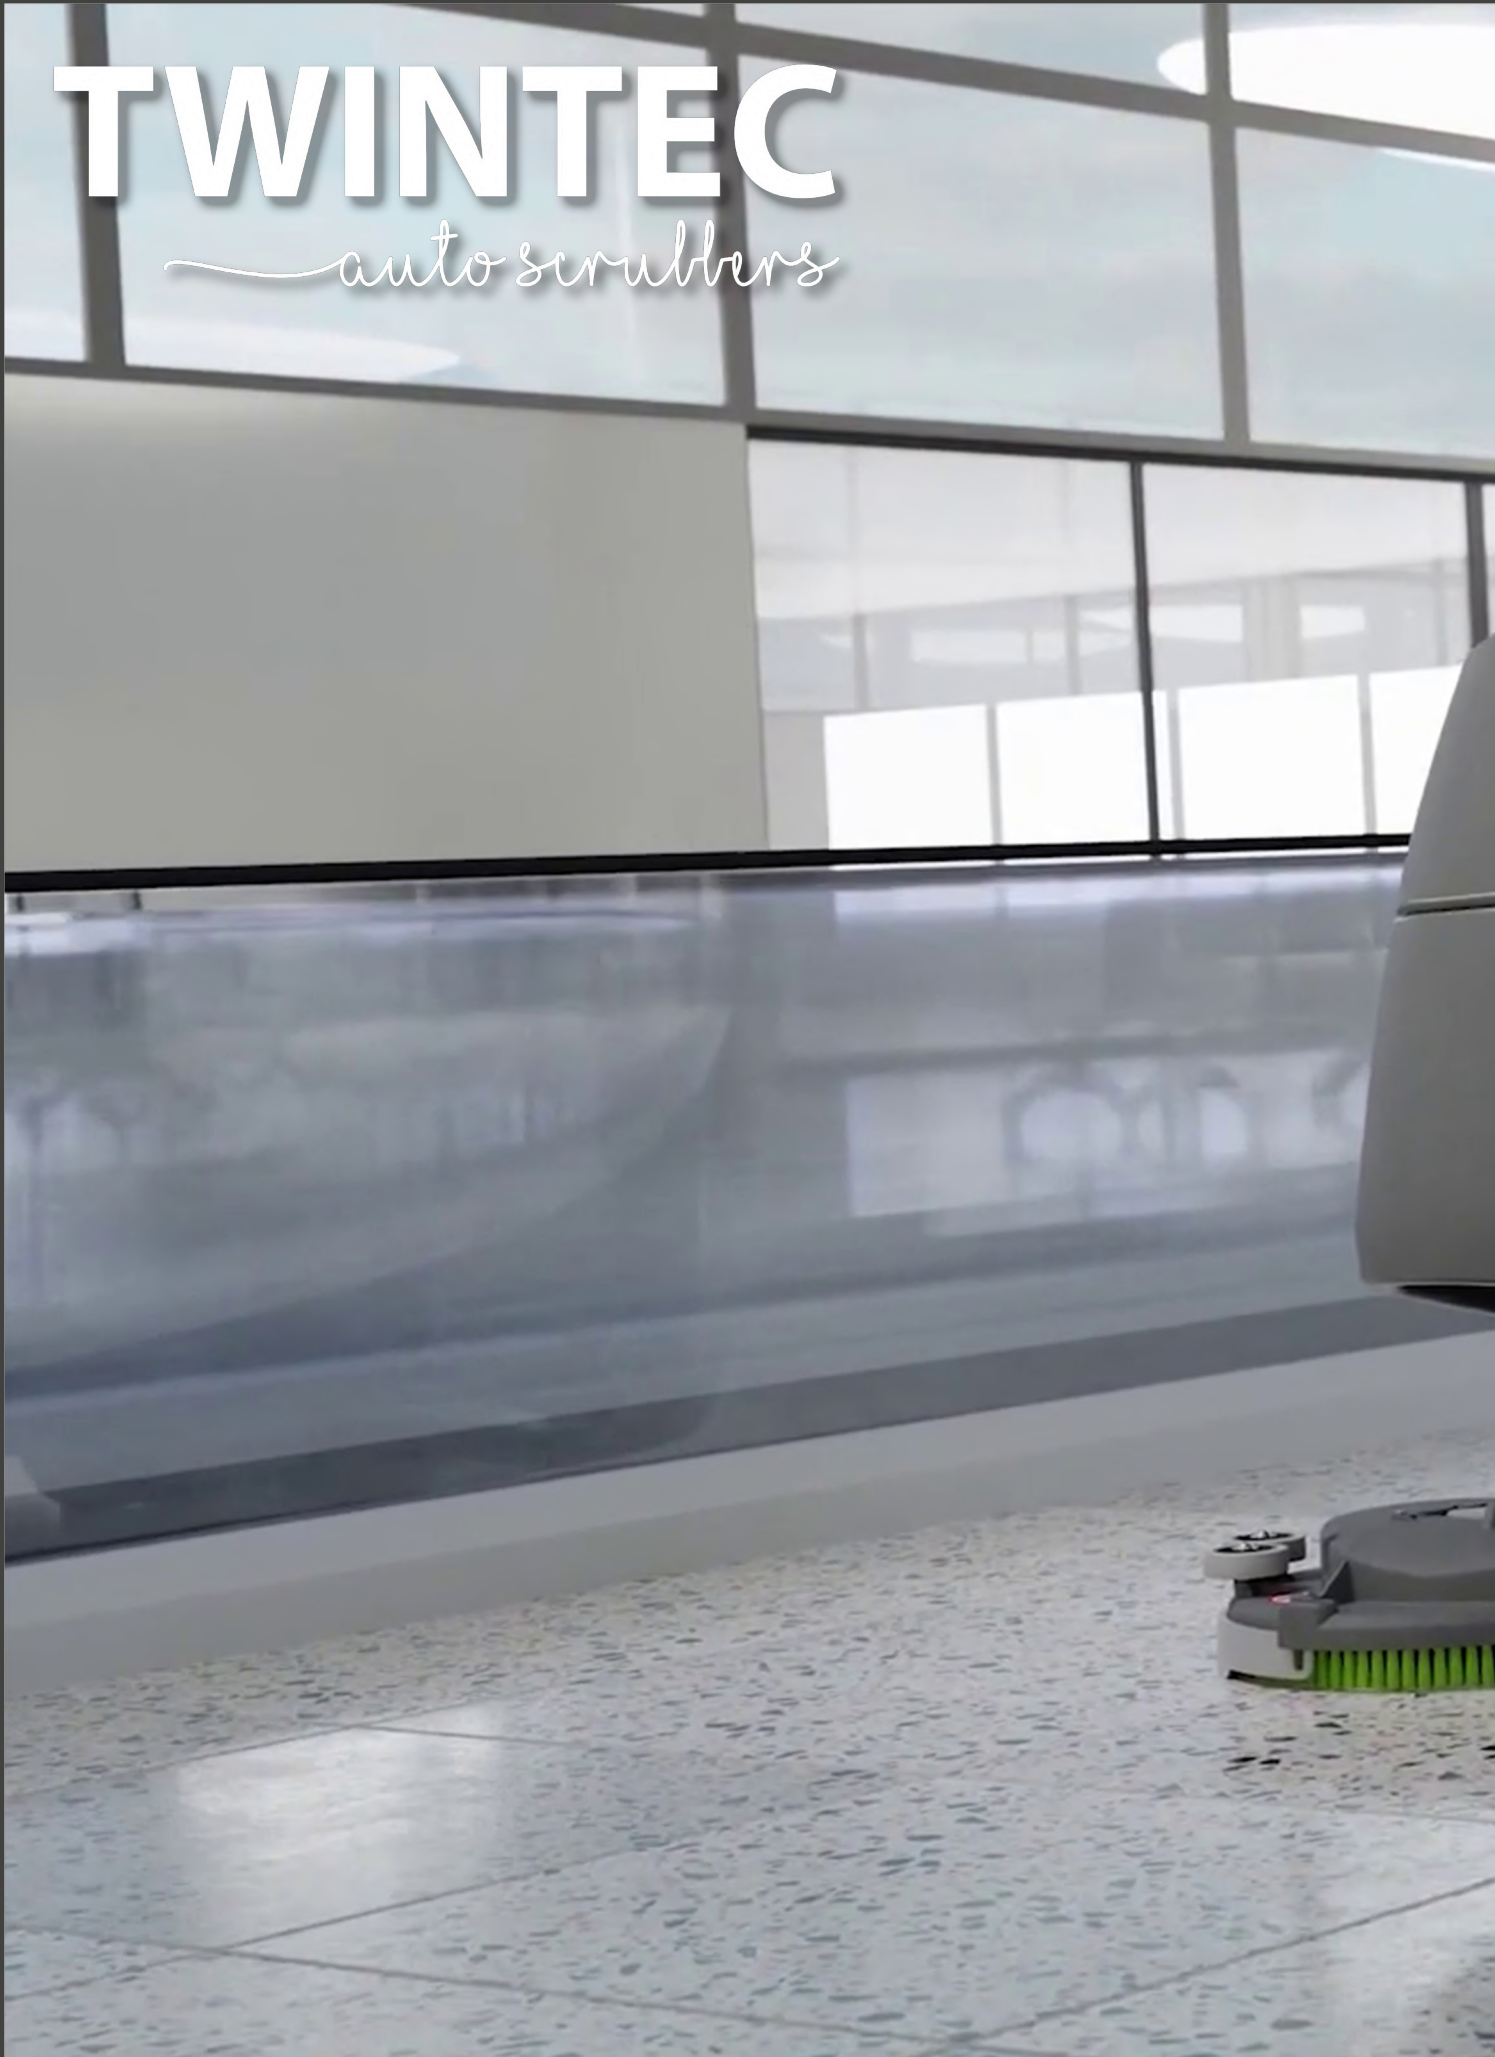

GR5

GR5 is a water-based degreasing product that is environmentally friendly, non-toxic, non-carcinogenic, non-flammable & anti-bacterial - SABS Approved.

TWINTEC

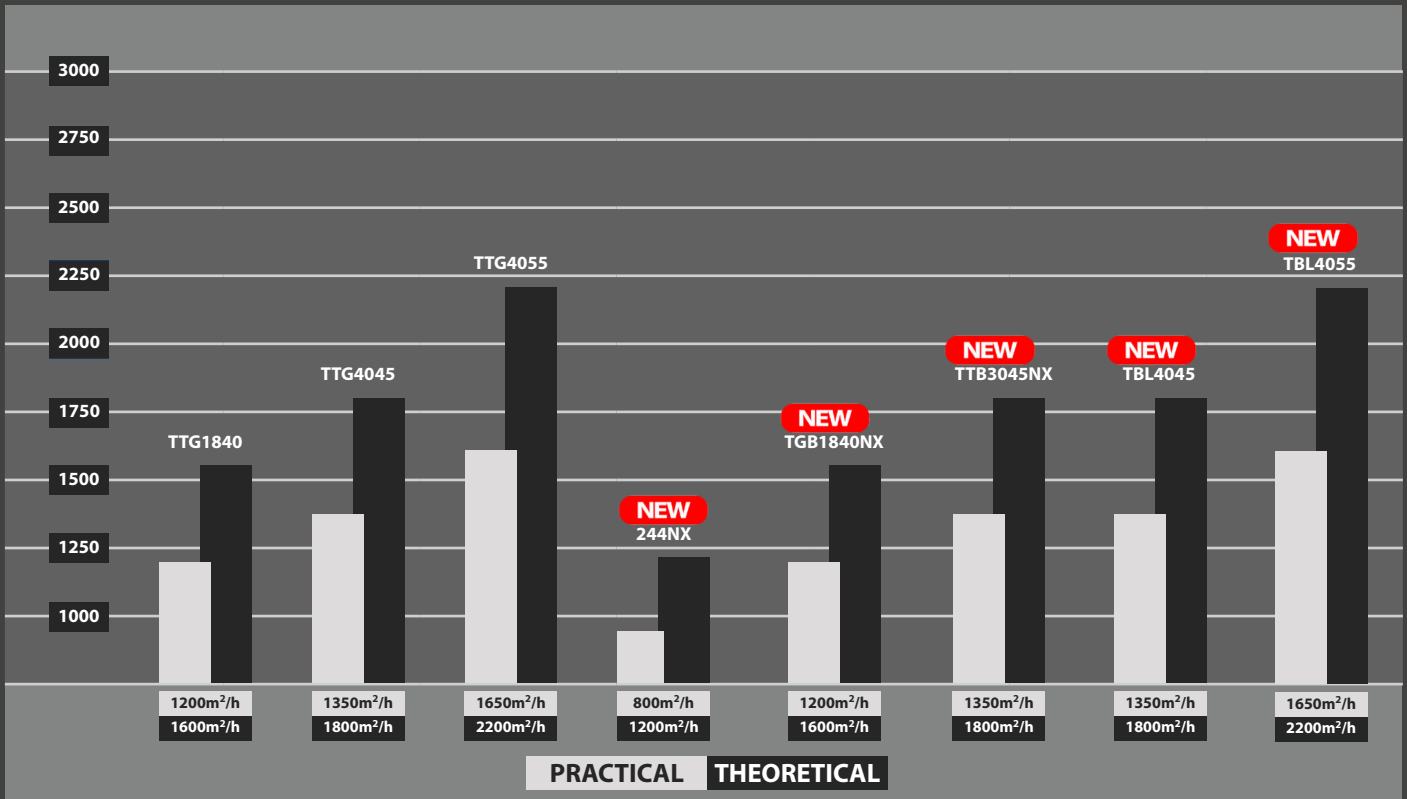

auto scrubbers

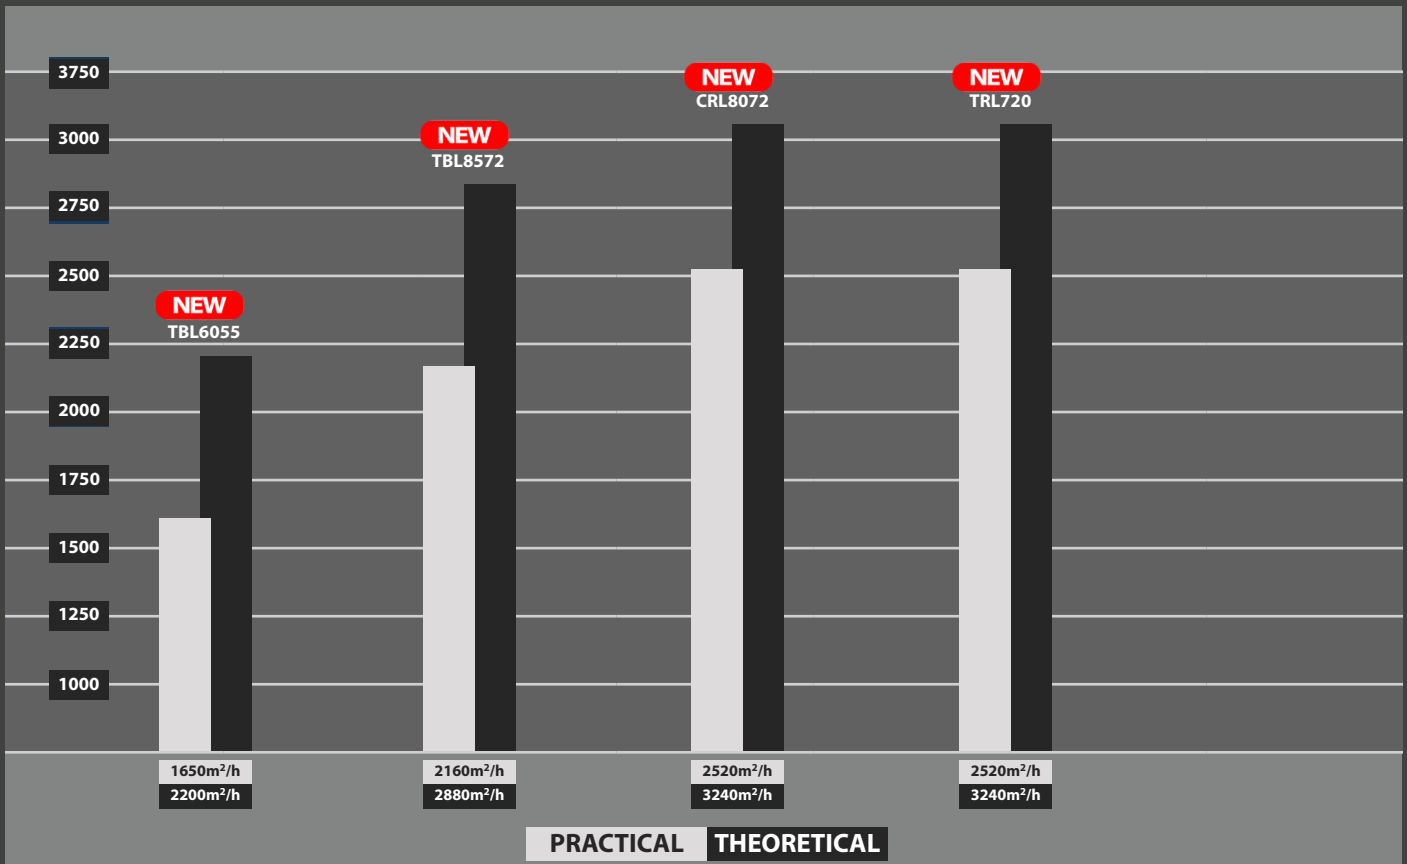

Performance Parameters

$$cs \times bw = m^2/h = \frac{cs}{bw} = \frac{\text{(cleaning speed)}}{\{\text{brush width}\}}$$

$$cs \times bw = m^2/h = \frac{cs}{bw} = \frac{\text{(cleaning speed)}}{\{\text{brush width}\}}$$

Complete Cleaning Control

- Machine is required to work for extended periods of time.
- Consistent performance under varying load conditions is required.
- Power outlets are readily available.
- When it is not required that the machine be used in public or high traffic areas (Health & Safety).
- In open areas with little or no obstructions.

When to use Battery?

- When Health & Safety is a consideration in public or high traffic areas - reduced risk of trips & falls.
- Little or no access to power points.
- When cable free operation & manoeuvrability is required in congested areas.

- **Pay Back in 5 Minutes**

Switching to the 244NX for just 5 minutes a day instead of mopping makes big savings, returning the total machine cost in 3 years.

- **Smart & Sustainable Water Distribution**

Centrifugal System Minimizes Water Use, Eliminates Spray-off and Reduces Refill Time.

- **NX300 Cordless Cleaning Network**

The NX300 Cleaning Network brings the convenience and performance of professional cordless cleaning across our growing battery range.

244NX Compact Scrubber Dryer

Fast, Effective, Clean

Often the only solution when cleaning in small and congested areas has been traditional mopping, typically leaving floors wet with inconsistent results. Lightweight and easy to use, the 244NX leaves floors clean, dry and safe whilst reducing labour costs by 70% and water use by 80%.

MOPPING

systems

The background of the page is a blurred photograph of a modern office space. On the left, there are large windows looking out onto a bright, possibly snowy, outdoor scene. In the center and right, there are office partitions and a reception desk area. The overall lighting is bright and airy, with a focus on clean, contemporary design.

Numatic Revo

SprayMop Technology

The SprayMop has been designed to provide highly efficient performance with minimum of effort, ensuring a high standard of floor cleaning in the shortest period of time.

In the majority of applications the mop will always be used "Damp", not too wet & not too dry, so that all surfaces are actually wiped clean.

EcoMatic Trolleys

Providing complete versatility of lockable, open and waste bin storage, the ECO-Matic EM5 Cleaning Trolley offers a generous 120L waste bin facility, lockable deep storage drawers, top storage tray and front storage unit.

- Compact Design**
 Small cleaning trolley, easy to store and unobtrusive in use.
- Safe & Secure Storage**
 Lockable and closed-away systems for safe and secure cleaning in public areas.
- Sustainably Engineered**
 Made from high-quality recycled plastic using ReFlo Technology.
- The Right Cleaning Trolley for the Right Job**
 A wide range of accessories to suit all cleaning requirements.

MopMatic Mop Preparation

1

Load the mop box with 12 clean MopMatic mop heads, pockets up.

2

Close lid, push firmly on lid & lock over all 3 latches. Ensure all latches lock down.

3

Turn box on its side "foot down" & open sliding door of dispensing reservoir.

4

Pour 2L of the approved solution gradually in to the dispensing reservoir.

5

Close the sliding door & leave to soak for 10 mins.

6

After 10 mins return bucket to the lid up position, open lid & use mop to remove mop head.

7

Push down to fully engage mop head on holder.

8

After use, place mops in appropriate dirty mop container (hands-free). Bucket can hold 20-25 dirty mops.

The MopMatic box is a unique and innovative mop preparation system that allows for the efficient and uniform saturation of mops with cleaning or disinfecting solutions.
